**New York, NY.** Nixon Peabody LLP has continued to expand its **Affordable Housing & Real Estate** practice with the addition of **Josie Morris**, who joins the law firm as counsel.

Based in Nixon Peabody's **New York City office**, Josie brings more than a decade of experience representing developers, owners, and institutional investors in all aspects of commercial real estate transactions. She has worked in both private practice and in-house counsel roles and will focus primarily on our affordable housing real estate work at the firm.

"As real estate transactions grow in complexity, the need for attorneys with broad experience across a full spectrum of transactions is crucial to protecting our clients' interests," said **Chris Froeb**, leader of Nixon Peabody's Affordable Housing & Real Estate practice. "Josie's depth of experience will be an immediate benefit to our affordable housing clients, both locally and nationally. We are thrilled to welcome her to the firm."

Josie guides clients through every stage of real estate transactions, including acquisitions, dispositions, joint ventures, leasing, and financing. She brings extensive experience across all asset classes, with a particular emphasis on multifamily and affordable housing properties, helping clients achieve their objectives and navigate the challenges of today's evolving real estate and affordable housing landscapes.

"The New York City real estate landscape is everchanging, and Josie brings a variety of experience in that market to support clients' evolving needs," said **Richard Langan**, managing partner of Nixon Peabody's New York City office. "She will be an excellent addition to our office, and we are excited to introduce her to our clients and colleagues."

Josie earned her JD from New York University School of Law and her BA from the University of Michigan.
